RE: USA v. Banks, 15-CR-168; USA v. Hough; USA v. Askew

Dear Judge Hornak,

Adrian Roe, Esq my attorney had not been down here to see me /
Consult since 10/15/15 as a result I'm in the dark. What is the
Status on the bond reconsideration motion?

As you know I've been exposing a state secret aka electronic
surveillance. I would like you to issue an order to the US government
to disclose the electronic surveillance under 50 USC § 1806(f). I'm an
aggrieved person under that act since at least 2011 if not earlier. I also hereby
move the Court for an order disclosing electronic surveillance to Clay Rangel, Rugh + Andrew Askew.

Also, there is ample evidence to believe that electronic surveillance
exists as far back as 2003 which would clearly show that FBI agent
Timothy Punched, set me up and did everything I claimed. You should
also order the government to disclose that surveillance and tell them to
settle with me. Both myself + Meredith Bond, will be taking the detector
tests.

Finally, you should be aware that before the Superseding Indictment
was returned I was corresponding with the Grand Jury foreperson
about the issues in this case. There is no way in light of this fact that
the case can proceed. Due Process and the Grand Jury clause were violated.
As a result I demand to know why I am still being held I should
have been released. By setting me up the FBI stole ten years of my
life, now they are taking additional years. I must be released and
compensated and every one involved in my persecution has to be investigated.
FBI field office in Pittsburgh should be closed pending a complete
Interp. The CIA and Boss Allen investigated. Frederick Banks
